

The world leader in serving science

Practical workshop of **Electron microscopy**

21st of March | 13.00 – 17.00

Thermo Fisher Scientific, Vlastimila Pecha 12, Brno

Scanning Electron Microscope (SEM) and Small Dual Beam (SDB)

- Introduction into application in SEM/SDB
- Preparation of lamella for TEM system

Transmission Electron Microscope (TEM)

- Investigation of sample in TEM and STEM
- Spectral analysis of sample in TEM

Workshop has limiting capacity -12 people

Registration on FB (since March 7):
